Development of this publication has made use of the Cambridge English Corpus, a multi-billion word collection of spoken and written English. It includes the Cambridge Learner Corpus, a unique collection of candidate exam answers. Cambridge University Press has built up the Cambridge English Corpus to provide evidence about language use that helps to produce better language teaching materials.

This product is informed by English Profile, a Council of Europe-endorsed research programme that is providing detailed information about the language that learners of English know and use at each level of the Common European Framework of Reference (CEFR).
